Paylocity Among the Chicago Area's 101 Best and Brightest Companies

Elk Grove Village, Illinois – May 30, 2006 – Paylocity Corporation was recently named as one of the Chicago area's **101 Best and Brightest Companies to Work For** by the National Association for Business Resources (NABR).

Based in Elk Grove Village, Illinois, Paylocity provides payroll and integrated human resource solutions to clients throughout the United States. The company twice received the Payroll Service of the Year Award from the Independent Payroll Providers Association (IPPA). Likewise, *Inc. Magazine* named Paylocity to the Inc. 500 list for being among the country's fastest-growing, privately-held companies for two consecutive years.

The 101 Best and Brightest Companies to Work For awards honor local companies that recognize employees as their greatest asset. Winners are selected by an independent market research company and an independent panel of judges.

The NABR evaluates companies based on competency in nine areas: diversity and multi-culturalism, work-life balance, communication, compensation and benefits, employee education and development, recruitment and selection, recognition and retention, employee engagement and commitment, and community initiatives. The selection, recognition and awarding of the Best and Brightest Companies to Work For enables a business to showcase its employee-centered policies and best practices to demonstrate why the organization is an ideal place to work.

Over 6,500 companies in the Chicago metropolitan area were nominated for the 101 Best and Brightest award for 2006. As part of the evaluation process, employees at each nominated company were asked to complete a confidential survey about their work environment. The results were then tabulated using a quantitative scoring system. Paylocity was among the sixty companies receiving the highest scores to become one of this year's winners.

Last year, Paylocity was also named as one of the Chicago area's 101 Best and Brightest Companies to Work For, so the company has been recognized for two consecutive years.
